

# FIVE SIDE PLANNING & MOULDING MACHINES

## FIVE SIDE PLANNING & MOULDING MACHINE (BM-122)

Maximum width of bamboo slate	200 mm
Minimum width of bamboo slate	25 mm
Maximum thickness of bamboo slate	100 mm
Minimum thickness of bamboo slate	15 mm
Method of height adjustment	Manual
Method of width adjustment	Manual
Bore of planning cutter block	40 mm
Feed speed	Variable with help of frequency drive 0-1 mtr/ min
Forward / reverse movement of slat feeding	Yes
Motor power for slat feeding (feed motor)	0.50 hp X 4 motor
Motor power for bottom cutter block	3 hp
Motor power for right cutting block	3 hp
Motor power for left cutting block	3 hp
Motor power for top cutter block	5 hp
Motor power for 2 bottom cutter block	3 hp
Motor power for up and down mechanism	1 hp
Working height of machine	33 in
Over size locking mechanism	Yes (Limit Switch)
